

Portfolio

Features

- Responsive Navbar
- Linked Resume
- CSS: hover, buttons, media queries
- JS : navbar changes for mobile view

Mission-driven full stack developer with a passion for thoughtful design and collaboration.

I've always sought out opportunities and challenges that are meaningful to me. Although my professional path has taken many twists and turns — from being a Pastry Chef, Photography, and now software development. As a web developer, I enjoy using my attention to detail, my love for creating things, and my mission-driven work ethic to be successful.

About

Lessons Learned

- Wireframes are your friend
- Take breaks
- Develop in mobile view first
- Don't get too caught up in details
